

Lacan

Imagine a man walking, expecting to see someone, this I call an expectation, even an unconscious social determination which is usually called power, that institution which has a hexis which is organizing an attack, or in utopia a simple alienated walk.

Now imagine heroes.

Interpreted in the sense of gaming.

Points de capitones with even documentaries on Suprematicism

Just game with it.

Put on the phi earphones perhaps and game which means -

Dynamically - interrogate (Althusser), develop a curation (Sirohi).
